

XSpense: Transforming Security with AI-Driven Actionable Insights and Seamless Automation

In a world where every second counts, our mission is clear: To save lives.

We understand that critical moments often arise without warning, and the ability to act quickly can make a difference between life and death. That's why XSpense is dedicated to providing the tools and technology necessary for rapid response. Our solutions are engineered to streamline communication and enhance situational awareness, enabling organizations to prevent and mitigate emergencies before they escalate. With XSpense, you can trust that your safety protocols are not just responsive, but proactive—transforming moments of crisis into opportunities for effective crisis intervention, mitigation, and even aversion.

What we do:

We provide innovative, integrated security solutions that enhance detection, alerting, and mass notification systems. Designed and built by passionate integrators, our fully PoE solutions are easy to install, seamlessly integrated, and deliver real-time intelligence. We offer end-to-end solutions for an evolving security landscape. With features such as automated lockdowns, wearable badges for instant location tracking, and 911 support, XSpense empowers organizations to respond swiftly and effectively, ensuring safety, security, and peace of mind.

- Emergency Notification
- Building Automation
- Full Building Lockdown
- Patented Environmental Duct Sensor
- Wearable Panic Badge w/ Optional Tracking
- Cameras with Privacy Shutter
- Digital Signage
- Geofencing
- Public View Monitor
- Occupancy & Advanced Analytics
- AI Voice Activation
- Air Quality Monitoring
- Aggression Detection
- Full POE Intercom System
- Full POE Public Address (PA) System
- Student & Staff Attendance

X-Protect Wall Panic

X-Protect Desk Panic

X-Wearable Panic Badge Holder

X-Detect Environmental Duct Mount

X-Shield

X-Display Wall-mounted Digital Single/Dual-Sided Displays

X-Detect Alert

TRIGGERS

EVENTS = TRIGGERS + ACTIONS

X-Integrate Open API for Triggers and Actions

X-Guardian Software & Controller (Cloud, On Premise, or Virtual)

X-Connect Input and Output Module (for connecting 3rd party triggering devices)

ACTIONS

X-Announce Public Address Adapter

X-Light Strobe

X-Shield

X-Display Wall-mounted Digital Single/Dual-Sided Displays

X-Detect Alert

Central Station 911 Dispatch

Text Messages, Phone Calls, Emails

Screen Takeover Windows, Mac, Chrome OS

X-Guardian Mobile Software

Our Core

X-Shield

Compact security system with, speakers, backlit panic button, microphone, touchscreen, particle sensors, strobes, backlight, camera w/ shutter, occupancy detection, tamper, and optional card reader

X-Wearable

Real time instant panic button notification with optional real time tracking and notifications

X-Announce Public Address Adapter

Connects to an existing PA system for Audio notifications and real time streaming

X-Detect Alert

Notification and detection appliance includes speaker, microphone, strobe, occupancy, and optional people counting

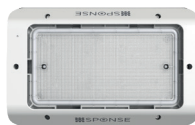

X-Display

Customizable high resolution screen used for audio or video display. Includes camera with shutter, microphone, speakers, strobe, various mounting options

X-Detect Environmental Duct Mount

Real time vape and particle sensor providing the most accurate alerts using in duct mounting

X-Light Strobe

RGBW illumination and audible buzzer

X-Protect Panic Buttons

Desktop or Wallmount IP-Based panic buttons with customizable LED lights and tamper

X-Connect

Input/Output Modules Enables inputs and outputs to connect to 3rd party systems for immediate and customizable triggers and actions

X-Guardian

The heart of the XSpone ecosystem controlling all triggers, actions, and events in real time
